SINCE 1946: VOLKSWAGEN – POWERED BY OETTINGER.

How can you gain even more performance, dynamics and design from something that is essentially perfect? The traditional tuning company OETTINGER from Friedrichsdorf in Germany has been tackling this challenge for more than 70 years. Right from the beginning, OETTINGER has specialised in upgrading Volkswagen models. The highlights of the company's work include the legendary "Okrasa" Beetle which demonstrated its motorsport superiority in the 1950s along with the Golf, which OETTINGER has been taking to new heights since 1975.
