Transport

Only 100% quality products are given the Volkswagen Genuine name.

Laboratory testing:

Corrosion test in saltwater spray systems, UV resistance, environmental compatibility and many additional laboratory tests examine all the relevant material properties. The climate chamber subjects the products to extreme temperatures.

Endurance:

Whether short distances, high-speed or route profiles of varying difficulty – durability under continuous load conditions is tested. The special road endurance test is carried out with a distance of 20,000 km using the maximum permissible load and a variety of different testing profiles.

Test track:

Test drives with maximum acceleration both forwards and to the sides, for instance by weaving around obstacles, emergency braking or over cobblestones subject the accessories to extremely hard tests over and over again.

01

01 Roof Bars

The genuine roof bars provide the base for all roof attachments and are aerodynamically designed to suit the Golf and Golf Wagon.

Part no. 5G4071126 (Golf)

Part no. 5G9071151A (Golf Wagon)

02

03

03 Bicycle carrier, fork mounted

Part. no. 7M0071128D

04

04 Kayak holder

No bouncing, no slipping: developed specially for kayaks up to 25 kg in weight, the holder adapts itself perfectly to the shape of the kayak. Four moveable rubber supports secure the kayak during transport. Strong tension belts ensure that the kayak is well fastened.

Part no. 1K0071127A

05

05 Comfort ski and snowboard holder

When it comes to top of the mountain, there's nothing better on top. You can take up to six pairs of skis or up to four snowboards on the roof of your vehicle, comfortably and safely. The lockable ski and snowboard holder can quickly be mounted on the roof bars and is easy to operate.

06 Bicycle holder

The aerodynamic bicycle holder has a quick-fastening system that makes it easy to fit and can be locked for piece of mind.

Part. no. 000071128F

01

01 Premium Roof box

The aerodynamic roof box provides an impressive combination of minimal driving noise together with simple and quick installation using a quick-action clamping mechanism. The box is fixed to the carrier through pumping movements of the quick-action clamping mechanism. Further highlights: comfortable and easy opening from both sides thanks to the innovative "DuoLift system" and the pneumatic springs integrated at the front and rear as well as optimal anti-theft protection through a 3-point central locking system. The roof box manufactured using DUROKAM® thermoplastic is UV-resistant, light, dimensionally stable, impact-resistant and durable. Max. load capacity: 75 kg. Colour: Gloss Black.

OETTINGER Aerodynamic Packages.

For Golf GTI and Golf R.

Overseas model shown

SINCE 1946: VOLKSWAGEN – POWERED BY OETTINGER.

How can you gain even more performance, dynamics and design from something that is essentially perfect? The traditional tuning company OETTINGER from Friedrichsdorf in Germany has been tackling this challenge for more than 70 years. Right from the beginning, OETTINGER has specialised in upgrading Volkswagen models. The highlights of the company's work include the legendary "Okrasa" Beetle which demonstrated its motorsport superiority in the 1950s along with the Golf, which OETTINGER has been taking to new heights since 1975.
